Many teens just like you have grown up to follow their passions, live happy lives, have families and be successful in their work. You may also have trouble sleeping, feel hopeless about the future, and sometimes think about death or suicide. Behavioural disorders in children Share show .

It is important to remember that the child or young person is not necessarily like this. This applies as much to the interests that adults may have in the present-being of the child as it does to the child's actual present interests. There are several possible reasons for why this might be. However, we propose here that regardless of whether one wishes to pursue a liberal, a communitarian or some other view of the good society, the maximization of the potential for each individual is a laudable goal.
