A diplomatic capital during the first half of the twentieth century and through its free port stations, Tangier was one of the most important financial centers in the world. The study also concludes that changes in project scope may have the greatest impact on project costs. In fact, they estimate that the bill for water and electricity services has increased since Amendis was entrusted with their delegated management. It forms a central part of the safety case, and the results of the safety assessment. Thus, concentrating its attention on the seaside, Tangier does not know how to manage the seasonality of this segment and therefore has a substantial shortfall. Comment fonctionne-t-il?
